Nancy
We learned a permit application was submitted and receiuved by the Corps on April, however the project has federal funds from FWS therefore we deemed the app incomplete until FWS provides the environmental evaluation as part of their administrative responsibility. Any further questions pls let me know. Thx.
Sindulfo Castillo

Sindulfo, Johann -

I had responded to Pam Gaffin as you instructed me (we are aware of the project, but no permit application rec'd yet); however, she wrote back to tell me that you told her that the application WAS received earlier this year. Please give me an update with current info as I also provided the same response to a media query and I need to correct that.

Thanks,
Nancy

Nancy,
Our response should simple: No permit application has been received by the Corps Regulatory office, however there have been some discussions about the proposed project.

Mrs. Sticht:

Per conversations with Edgar Garcia the current status is that the project was assigned federal funds trough Fish and Wildlife Service (FWS), The Corps would not be able to evaluate the project until the NEPA process is completed and coordination with other agencies such and NMFS and FWS needs to be completed. The process was explained the last time the proponent met with the Corps of Engineers and FWS (Atlanta). Don't kow if we should only let Mrs. Pam Gaffin the COE has not received a JPA to commence the verification process for this project and not comment on the federal funding.

Thanks;

Johann M. Sasso, EIT

I have another inquiry about this project so if you could give me a brief status report at your earliest opportunity, that would be a big help.
Thanks again!

Johann,
Have you been able to help Ms. Gaffin? Please let me know status.
Thanks,
Nancy

Hi Johann,

Would you please contact Ms. Gaffin about the subject project, and let me know when done so I can close out the inquiry on our end.

Thanks,
Nancy
