Please see message below.

I will be participating next Tuesday in the quarterly Caribbean Coral Reef Partnership call.

One of the main topics for discussion in this call will be the Coral Bay proposed marina.

Could you please provide me with a fact sheet or a summary of the proposed project and the main issues so I can describe Corps actions and processing status regarding this permit application?

An alternative could be for Johann to join me in the call.

Thanks,

José A. Cedeño-Maldonado

Subject: [EXTERNAL] Caribbean Coral Reef Partnership Quarterly Call

Greetings,

This is a reminder that the quarterly Working Group conference call is scheduled for Tuesday, December 16 at from 2:00 – 3:30 pm. We will be sending the draft agenda out on Monday. A significant agenda item is the proposed marina development in Coral Bay, St. John. I encourage you to attend this meeting as it will allow us to share any information or thoughts that we may have on this project. EPA proposes that we also schedule a follow-up Partnership Principals' conference call on the marina proposal in the near future. The agenda for this call will also follow up on other business including coral monitoring. I look forward to speaking with you on Tuesday.

Regards,

Buddy
