Sharon,
Thank you for your email and I'm glad you appreciated and benefited from the educational briefings during the Open House. It was a great pleasure to have you.

As far as visiting the St. John marina project site in Coral Bay, we have scheduled a working meeting in St. Thomas in the morning and plan to be in St. John in the afternoon at about 1500 on Thursday, October 9th. We would like to know, where we can meet with you or your representative so we can visit the site. Your prompt feedback as to you availability and place to meet will be greatly appreciated. Look forward to see you.
Thank you.

Hello Sindulfo, Johan and Tori -

Thanks to you all for the excellent seminar on USACE practices and policies a couple weeks ago.

Tori had mentioned to me the intention to have a visit by your senior people to Coral Bay, St. John as part of the upcoming trip to have the public meeting on Coral World, St. Thomas on Sept 25th.

We certainly think it would be worth your time to come and see the Coral Harbor bay and its environmental and navigational characteristics as seen by those who live here and our environmental & watershed management agency.

With two marina proposals in the works, and more possible, its important that all the facts are known about the bay.

Could you please let me know what your plans are - so that we can accommodate you.

Thanks, Sharon Coldren
President, CBCC
