**SUBJECT: MAJOR CZM PERMIT NOS. CZJ-3-14(L) & CZJ-4-14(W)
THE SUMMER'S END GROUP, LLC
PROPOSED MARINA & ASSOCIATED FACILITIES
ST. JOHN, VIRGIN ISLANDS**

Dear Mr. Castillo:

Enclosed are the Joint Application and Environmental Assessment Reports for the subject CZM permits. The Joint Application is forwarded to your office for an Army Corps of Engineers (ACOE) permit.

Questions or concerns regarding this application are to be referred to Anthony Richards, Permits Coordinator, at (340) 774-3320, or via email to Anthony.richards@dpnr.gov.vi.

Cordially,

Jean-Pierre L. Oriol
Director of CZM

U.S. ARMY CORPS OF ENGINEERS
APPLICATION FOR DEPARTMENT OF THE ARMY PERMIT
33 CFR 325. The proponent agency is CECW-CO-R.

Form Approved -
OMB No. 0710-0003
Expires: 30-SEPTEMBER-2015

Public reporting for this collection of information is estimated to average 11 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of the collection of information, including suggestions for reducing this burden, to Department of Defense, Washington Headquarters, Executive Services and Communications Directorate, Information Management Division and to the Office of Management and Budget, Paperwork Reduction Project (0710-0003). Respondents should be aware that notwithstanding any other provision of law, no person shall be subject to any penalty for failing to comply with a collection of information if it does not display a currently valid OMB control number. Please DO NOT RETURN your form to either of those addresses. Completed applications must be submitted to the District Engineer having jurisdiction over the location of the proposed activity.

PRIVACY ACT STATEMENT

Authorities: Rivers and Harbors Act, Section 10, 33 USC 403; Clean Water Act, Section 404, 33 USC 1344; Marine Protection, Research, and Sanctuaries Act, Section 103, 33 USC 1413; Regulatory Programs of the Corps of Engineers; Final Rule 33 CFR 320-332. Principal Purpose: Information provided on this form will be used in evaluating the application for a permit. Routine Uses: This information may be shared with the Department of Justice and other federal, state, and local government agencies, and the public and may be made available as part of a public notice as required by Federal law. Submission of requested information is voluntary, however, if information is not provided the permit application cannot be evaluated nor can a permit be issued. One set of original drawings or good reproducible copies which show the location and character of the proposed activity must be attached to this application (see sample drawings and/or instructions) and be submitted to the District Engineer having jurisdiction over the location of the proposed activity. An application that is not completed in full will be returned.

NAME, LOCATION, AND DESCRIPTION OF PROJECT OR ACTIVITY

12. PROJECT NAME OR TITLE (see instructions) St. John Marina, Yacht Club at Summer's End	
13. NAME OF WATERBODY, IF KNOWN (if applicable) Coral Harbor	14. PROJECT STREET ADDRESS (if applicable) Address 10-17, 10-18, 10-91, 10-41 (Rem), 13A, 13B & 13(Rem) City - St. John State - VI Zip - 00830
15. LOCATION OF PROJECT Latitude: -N 18° 20.36' Longitude: -W 64° 42.50'	
16. OTHER LOCATION DESCRIPTIONS, IF KNOWN (see instructions) State Tax Parcel ID 3064020706 Municipality Section - Estate Coralina Township - Coral Bay Range -	

17. DIRECTIONS TO THE SITE

From the town of Cruz Bay take Hwy 10 east to Coral Bay. Turn to the right at the interception of HWY 10 and Route 107. The project is located on both sides of the roadway on the eastern side of the site. The project includes and is to the south of Cocoloba Commercial Complex.

18. Nature of Activity (Description of project, include all features)

This project consists of construction of fixed docks to accommodate up to 145 vessels of varying length. Most of the vessels are expected to be transient, occupying a slip for a limited period of time. There is no dredging associated with this project. Dock construction will consist primarily of 15-inch coated-steel piles tied together with pre-cast concrete pile caps supporting a grated decking to allow light penetration to the seabed below. Mooring piles will be either 12-inch or 15-inch diameter. Access to the marina will be via a single controlled walkway to the fixed docks. A public dinghy dock will be located midway between the shoreline and the first slip at the marina. This 20-foot by 40-foot dinghy dock will provide a safe docking area and allow ample public access to utilize adjacent businesses in the Coral Bay area. The Zone 1 docks will be a total of about 21,100 square feet (ft²), Zone 2 will be about 40,800 ft² and the main walkway will be a total of about 12,900 ft². There is an existing rip-rap revetment along the southern shoreline of the property, no alteration of the riprap will be required. The upland redevelopment project consists of primarily utilizing existing buildings (continued on attached page)

19. Project Purpose (Describe the reason or purpose of the project, see instructions)

The primary purpose is to create a premier marina development to serve local needs and to attract private and charter yachts from around the world.

USE BLOCKS 20-23 IF DREDGED AND/OR FILL MATERIAL IS TO BE DISCHARGED

20. Reason(s) for Discharge

The existing drainage way through the property has bed and bank characteristics and therefore is jurisdictional. The drainage way will be altered through the placement of 2 culverts to allow for a driveway crossing and re-contoured to create a stormwater management area to improve storm water quality from both on and off site.

21. Type(s) of Material Being Discharged and the Amount of Each Type in Cubic Yards:

Type Amount in Cubic Yards	Type Amount in Cubic Yards	Type Amount in Cubic Yards
17 cubic yards riprap culvert outlets	7 cubic yards gravel culvert base	7 cubic yards clean fill around culverts

22. Surface Area in Acres of Wetlands or Other Waters Filled (see instructions)

Acres
or

Linear Feet 265 linear feet of the drainage way will be altered through the placement of culverts, driveways and sideways, and retention

23. Description of Avoidance, Minimization, and Compensation (see instructions)

The marina has been positioned so that all dredging can be avoided. The docks have been located to avoid the scattered coral heads found with in the shallows. The project will be directly impacting approximately 2500 sq. ft. (0.06 acres) due to the placement of 1333 piles ranging from 12-17" in diameters. Due to wave turbulence seagrass will also be lost surrounding the piles. The dock itself occupies 1.42 acres of which 181 sq. ft. (0.004 acres) will be over areas with seagrass and coral rubble, 1567 sq. ft. (0.013 acres) over area of sparse seagrass, 41,546.37 sq. ft. (0.95 acres) over areas with 30%-100% seagrass coverage, 27,072 sq. ft. (0.62 acres) (continued)

24. Is Any Portion of the Work Already Complete? ☐ Yes ☒ No IF YES, DESCRIBE THE COMPLETED WORK

25. Addresses of Adjoining Property Owners, Lessees, Etc., Whose Property Adjoins the Waterbody (if more than can be entered here, please attach a supplemental list).

a. Address- SEE ATTACHED SHEET
